**LETTER OF SUPPORT FROM
MAYOR BOB PARKER**

I am delighted to support the New Zealand Contractors Federation and Certified Builders' Association's initiative to put together a website, EarthquakeFIX, to provide a one-stop portal where Cantabrians can research and engage local reconstruction professionals from plumbers and electricians to builders and civil contractors.

It is really important that those needing services have access to competent and qualified tradespeople. The website provides a place Cantabrians can go and have confidence that they are able to find professional, competent and fair service providers who traditionally operate in Canterbury to assist them to remedy damage caused to your property as a result of the earthquake

We are now into the recovery phase and good advice on re-building is very important. Congratulations to the New Zealand Contractors' Federation and Certified Builders and their sponsors on the provision of a one stop shop for those seeking advice on re-building

Bob Parker
MAYOR
